**Introducing**  
**New SMARTPULL\* Dispensing**

The New SmartPULL\* Exam Glove Dispenser Box has two openings to allow for better glove dispensing and **LESS WASTE!**

**Directions For Use:**

**Step 1:**

Remove the perforated carton opening at Tab 1

The smaller opening helps prevent multiple dispensing and glove waste.

**Step 2:**

As the box empties and dispensing becomes difficult, remove the opening indicated by Tab 2

Continue dispensing as you would from a traditional glove carton.
